HOW TO USE THIS BOOK

Save the ideas. Keep the questions.

Compare straight sofas, sectional arrangements, rounded forms and lounge chairs. Use the collection to define the way people sit and move in the room, then agree the selected model, upholstery, construction information and delivery arrangement.

Each design spread links to a relevant product range or selection guide. Keep the page number with your comments when you prepare the project brief.

From a visual direction to a useful brief.

Seat the room before choosing a silhouette.

01 / Describe the room

Share a measured plan, the intended activities and the items the space should contain.

02 / Select the details

Save preferred pages and identify the visible features, finishes and arrangements you want to discuss.

03 / Confirm the package

Review selected-item information, samples, quantities and the itemised supply scope before approval.

Foshan Bridge provides furniture, cabinetry and building-material sourcing and trade supply. The references in this book communicate design directions; selected products, materials, dimensions and included items are confirmed through the project specification.

Start with Sofas & Sectionals or discuss your project brief.

Seat the complete room.

Begin with the group, then select the individual pieces.

DESIGN DIRECTION

The sofa group provides a room-scale reference for seating, occasional tables and circulation. Use it to decide how people should face one another and move through the space. The furniture schedule should identify each selected piece rather than treating the photographed interior as one supplied package.

PLAN IT FOR YOUR ROOM

Mark the seating footprint on the room plan. Identify sofas, chairs and tables separately. Check delivery access and request the selected-item dimensions and upholstery samples.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

CHECK THE SCOPE

List quantities, fittings and supply responsibilities.

Compare priorities ↗ · Specification checklist ↗

An L-shaped arrangement.

The return gives the room a clear seating boundary.

DESIGN DIRECTION

The sectional composition turns the seating around a central area. The return can help define a zone, but its direction needs to follow the actual room and access route. Compare the complete footprint, including projecting ends, before selecting a configuration from a visual reference.

PLAN IT FOR YOUR ROOM

Confirm the selected orientation and module arrangement. Check room openings and circulation. Ask for the actual model dimensions, connection details and included cushions.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

CHECK THE SCOPE

List quantities, fittings and supply responsibilities.

Compare priorities ↗ · Specification checklist ↗

A rounded end.

A softer silhouette changes the outline of the seating group.

DESIGN DIRECTION

The curved end gives this sofa a different visual presence from a straight rectangular form. Its outline should be reviewed with nearby furniture and the route through the room. The image communicates shape and proportion; comfort, upholstery and construction belong to the selected-item review.

PLAN IT FOR YOUR ROOM

Request the model reference and dimensions. Compare fabric samples and seating information. Identify the included components and check delivery access for the chosen configuration.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

CHECK THE SCOPE

List quantities, fittings and supply responsibilities.

Compare priorities ↗ · Specification checklist ↗

A modular direction.

Treat the arrangement as a group of selected components.

DESIGN DIRECTION

The modular-looking composition offers a way to discuss separate seating elements and their relationship. A preferred image does not establish which combinations a supplier actually offers. Begin with the room arrangement, then request the available modules and the information needed to specify the chosen configuration.

PLAN IT FOR YOUR ROOM

List each selected module and orientation. Ask about connection arrangements and included accessories. Review the complete dimensions and delivery plan together.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

A straight sofa.

A clear outline can support several room arrangements.

DESIGN DIRECTION

The straight sofa gives the seating group a defined main axis. Compare its visible proportions and the relationship between arms, back and seat before choosing an upholstery direction. A quieter silhouette still needs a precise item reference and room footprint in the furniture schedule.

PLAN IT FOR YOUR ROOM

Check the selected width and depth against the plan. Request construction and care information. Approve upholstery, stitching and visible feet using the proposed item details.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

A chaise-like extension.

Decide how the extended seating will be used.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

CHECK THE SCOPE

List quantities, fittings and supply responsibilities.

Compare priorities ↗ · Specification checklist ↗

DESIGN DIRECTION

The extended section introduces a more relaxed seating position within the sofa group. Its location affects both the room outline and the way other seats face the central area. Review left/right orientation from the actual plan and supplier drawing, rather than relying on an ambiguous room photograph.

PLAN IT FOR YOUR ROOM

Confirm orientation, module references and overall dimensions. Check circulation at the projecting end. Identify included cushions and the selected upholstery reference.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

A coloured lounge chair.

Use the occasional chair as a deliberate accent.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

CHECK THE SCOPE

List quantities, fittings and supply responsibilities.

Compare priorities ↗ · Specification checklist ↗

DESIGN DIRECTION

The blue chair offers a contrasting colour direction within a seating group. Its role can be different from the main sofa: a reading position, an additional conversation seat or a visual accent. Keep the selected colour sample connected to the rest of the room palette.

PLAN IT FOR YOUR ROOM

Request the actual item reference and dimensions. Review the upholstery sample, visible base and care information. Check the chair position with nearby tables and circulation.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

A rounded chair and base.

Consider the complete chair silhouette.

DESIGN DIRECTION

The rounded upholstered form and visible base give this chair a distinct profile. Use the image to compare the outline and seating role; any rotating or other mechanism should be confirmed from the selected supplier information. The appearance alone does not establish the operating specification.

PLAN IT FOR YOUR ROOM

Ask for the model dimensions and base/mechanism information. Approve the upholstery sample and visible finish. Identify any separate cushions or accessories in the schedule.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

CHECK THE SCOPE

List quantities, fittings and supply responsibilities.

An open-frame chair direction.

The frame becomes part of the room palette.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

CHECK THE SCOPE

List quantities, fittings and supply responsibilities.

Compare priorities ↗ · Specification checklist ↗

DESIGN DIRECTION

The visible frame creates a different relationship between upholstery and structure from a fully enclosed chair. Compare the exposed outline alongside cabinet and table finishes. The actual frame material, construction and upholstery should be established in the item specification rather than inferred from the photograph.

PLAN IT FOR YOUR ROOM

Request frame and upholstery information with finish samples. Check the selected dimensions and seating position. Confirm assembly and care requirements for the actual item.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

A lower visual profile.

Compare the chair with the neighbouring furniture.

SAVE THE DIRECTION

Note the page and the particular details you prefer.

DEFINE THE ITEM

Use a selected reference, sample and written specification.

CHECK THE SCOPE

List quantities, fittings and supply responsibilities.

Compare priorities ↗ · Specification checklist ↗

DESIGN DIRECTION

The lower-looking chair introduces a more relaxed visual direction. Its relationship to a coffee table, sofa and surrounding room affects the overall group. Treat the image as a silhouette reference, then review the actual seat and overall dimensions before deciding whether the item suits the intended use.

PLAN IT FOR YOUR ROOM

Request the selected-item dimensions and construction information. Review upholstery and visible frame samples. Check access, placement and included components in the furniture schedule.

Continue with Sofas & Sectionals to compare the related range and connect these choices with your project brief.

Compare the choices that matter.

Use this as a discussion sheet, then confirm the actual selected-item information.

DIRECTION	USE IT TO DISCUSS	CHECK TOGETHER
Seat the complete room	The sofa group provides a room-scale reference for seating, occasional tables and circulation.	Mark the seating footprint on the room plan.
A modular direction	The modular-looking composition offers a way to discuss separate seating elements and their relationship.	List each selected module and orientation.
A coloured lounge chair	The blue chair offers a contrasting colour direction within a seating group.	Request the actual item reference and dimensions.
A lower visual profile	The lower-looking chair introduces a more relaxed visual direction.	Request the selected-item dimensions and construction information.

Keep the specification connected.

The image establishes a direction. The selected package needs a written record.

Review a representative sample and the actual selected-item information. Confirm values and claims from the relevant supplier documentation, then record the approval against the item and drawing revision.

Continue with the materials and specifications guide.

Room & configuration

Furniture footprint, seating arrangement, access route and selected configuration.

Upholstery selection

Supplier fabric/cover reference, colour, stitching and approved sample.

Model & construction

Selected item reference, dimensions and supplier construction/care information.

Delivery scope

Included modules, legs, cushions, assembly arrangements and access requirements.

Prepare a more useful enquiry.

Attach the plan and saved references. Mark the decisions that are ready and the questions still open.

Room & layout

- ☐ Measured plan / opening schedule attached
- ☐ Room use, equipment and access identified

Preferred direction

- ☐ Saved page numbers and comments attached
- ☐ Selected references and finish samples listed

Quantities & scope

- ☐ Item quantities and included components listed
- ☐ Supply and installation boundaries identified

Project coordination

- ☐ Destination and requested schedule provided
- ☐ Open questions and drawing revision recorded
